

NO SPECIAL
TOOLS REQUIRED

ARDEX EG 8 PLUS

Easy Application

Epoxy Tile Grout & Adhesive

**COMBINING THE CHEMICAL RESISTANCE OF AN
EPOXY-BASED GROUT WITH THE EASE OF
APPLICATION OF A CEMENT-BASED GROUT**

ARDEX EG 8 PLUS is an epoxy tile grout and adhesive with excellent resistance to most chemicals but, unlike traditional epoxies, it is easy to apply, requires no special tools and can be cleaned off the tile surface up to 60 minutes after application.

ARDEX EG 8 PLUS is formulated to resist chemical attack, and is also waterproof and abrasion resistant. The result is a finish that is hygienic, durable and impervious, making it ideal for use in:

- Bathrooms
- Swimming pools
- Hydrotherapy and spa baths
- Hospitals
- Domestic and commercial food preparation areas

ARDEX EG 8 PLUS achieves the lowest possible emission limits

ARDEX EG 8 PLUS can withstand full loads after 2 days' curing, and after 7 days is resistant to aqueous salt solutions, chlorine water, commercial cleaning agents and a wide range of dilute mineral acids. It can also be used as a floor or mosaic wall tile adhesive in areas where a chemically resistant adhesive bed is required.

Joint width: 1-6mm
 Clean off time: Up to 60 minutes
 External use: Yes
 Pack size: 4kg
 Underfloor heating: Yes

Easy Application

Tools required

Apply ARDEX EG 8 PLUS with a standard squeegee

Remove excess ARDEX EG 8 PLUS from the surface

Wash any residue off the face of the tiles when slightly hardened in the joints, and up to 60 minutes after application

Clean down the tile surface to remove emulsified residues

Finished application
