TECHNICAL SUPPORT

WHEN AND WHERE YOU NEED IT MOST

ARDEX don't just manufacture High Performance Building products, we recognise the importance of providing gold standard technical advice and support. We understand your needs differ from project to project, and can often require on-site support, which is why we offer a more mobile, local technical support network.

TECHNICAL ADVICE

We're on hand to offer advice and product recommendations, in line with British Standards codes of practice, via telephone, email, video call and our social media channels.

SITE SUPPORT

Our highly experienced Technical Service team are available to attend your site, offering site assessments, advice and guidance on the best use of our products and systems for your project.

MOISTURE TESTS

Many problems which occur on site are the result of moisture in the subfloor, so it's essential that the final floorcovering is protected from the passage of moisture from below. Our team can perform on-site Hygrometer tests, explain the results and recommend the best moisture control system for your installation.

We're also on hand to perform additional site tests such as the BRE Screed Test, which is designed to measure the soundness of a sand/cement floor screed.

SPECIFICATION WRITING

We work closely with architects, specifiers, contractors and floorcovering manufacturers to ensure the most suitable specification for your project. When specifying ARDEX you can rely on our expert team for on-going support at every stage of your project, including a rapid response to specification writing.

TRAINING

ARDEX offer a range of courses at our purpose built Academies in Suffolk and Stoke-on-Trent. Alternatively we can tailor training to meet your specific needs and deliver it at a location of your choice.

To view our latest courses or to book your place visit
www.ardex.co.uk/training

EXPAND YOUR SKILL SET AT THE ARDEXacademy

ARDEX offer a range of flooring training and tiling courses at our purpose-built Academies in Suffolk and Stoke-on-Trent. Training is carried out by our team of technical experts, who have extensive knowledge and practical experience of the flooring and tiling industries which allows our courses to remain accurate and up to date, covering the latest information, technological advances and industry regulations.

ARDEXacademy
TRAINING EXCELLENCE

Choose the right course for you!

For the perfect floor you need the perfect subfloor. Our subfloor preparation courses are a mix of theory and practical hands on exercises, covering everything from moisture testing through to selecting the correct floorcovering adhesive.

For a detailed breakdown of what each course covers, or to book your place online, please visit

www.ardex.co.uk/training

ARDEX Flooring Installation Courses:

- Subfloor Preparation
- Subfloor Preparation & LVT Installation
- Intermediate Subfloor Preparation
- Subfloor Preparation & Introduction into Installing Safety Flooring in a Wet Room
- Identification and Preparation of an Anhydrite/Calcium Sulphate Screed

ARDITEX NA

THE ORIGINAL YELLOW BAG®

“ARDITEX NA is a worry free product! Simple!”

“ARDITEX NA is my ‘go to’ product.”

“ARDITEX NA gives me and my team confidence, it’s fool proof.”

Covers virtually everything...

With over 15 years in the trade, Shane Moore of Flooring Solutions is a member of the NICF council and a qualified NICF Master Fitter and Quickstep Master Installer. He aims to offer the best installations to his customers which is why ARDITEX NA remains his go to levelling compound, a product he first used as an apprentice.

...without the need for priming

ARDEX READY MIXED HEAVY DUTY ADHESIVE

Unlike traditional heavy duty adhesives, ARDEX AF 2575 is ready mixed and resealable, which means there's no wastage.

Simply spread the required amount of adhesive, replace the foil, and reseal the lid ready for your next job.

- Zero waste, ready mixed and resealable
- Ideal for installing safety flooring in a wet room
- High temperature resistance, for use with underfloor heating and in areas of direct sunlight
- Moisture and water resistant – can be used internally and externally
- Very low emissions
- Solvent free
- Covers up to 23m²
