- | | | |
|--|---|---|
| <input checked="" type="checkbox"/> Vertical Surfaces | <input checked="" type="checkbox"/> Cushioned Vinyl | <input checked="" type="checkbox"/> Linoleum |
| <input checked="" type="checkbox"/> Luxury Vinyl Tiles | <input checked="" type="checkbox"/> Coving/Skirting | <input checked="" type="checkbox"/> Carpet & Carpet Tiles |
| <input checked="" type="checkbox"/> Vinyl Sheet | <input checked="" type="checkbox"/> Vinyl Composition Tiles | <input checked="" type="checkbox"/> Rubber Flooring |

INSTALLATION SCHEDULE

*If required, a hot air gun can be used to shorten the airing time and speed up installation.

If preferred, the floorcovering or profile can be pre-coated the day before installation. The open time for flooring/profiles already pre-coated on the previous day into the newly applied film is approximately 90 minutes. The surfaces coated/pre-coated with ARDEX AF 620 must be placed together within the open time of 24 hours.

Times dependent on the absorbency of the subfloor and site conditions.

LEGEND

AIRING TIME

The time the adhesive must be left open before applying the floorcovering.

WORKING TIME

The time in which the adhesive can receive the floorcovering, after the initial airing time.

OPEN TIME

The combination of airing and working time.
