

NEW

ARDEX EG 18 PLUS

Easy to Apply & Clean Epoxy Tile Grout

Providing the chemical resistance of an epoxy grout with the ease of application and cleaning-off associated with cement based grouts

ARDEX EG 18 PLUS is a new 3-part epoxy tile grout.

- 3-part technology locks the colour within the filler ensuring improved, long-lasting colour tones.
- 3-part system provides easy to mix and easier to apply grout.
- No special tools; apply with an epoxy grout float.
- Improved rheology ensures grout holds well in the joints, particularly on walls.
- Cleans off far easier than other epoxy's: just clean off with a good quality sponge.
- Cleans off easily from as little as 15 minutes and up to 60 minutes after application.

ARDEX EG 18 PLUS is formulated to be chemically resistant, and is also waterproof and abrasion resistant. The result is a finish that is hygienic, durable and impervious, making it ideal for use in:

- Bathrooms
- Swimming pools
- Hydrotherapy and spa baths
- Hospitals
- Domestic and commercial food preparation areas

Joint width:	2-12mm
Clean off time:	15-60 minutes
External use:	Yes
Pack size:	4kg
Underfloor heating:	Yes

Mix the resin and hardener together

Mix in the filler

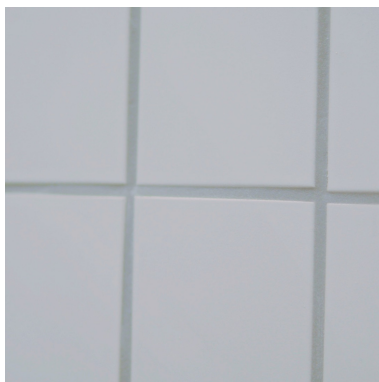

Apply ARDEX EG 18 PLUS with a hard rubber grout float

When ready to wash off, spray a fine mist of water over the face of the tile

Clean down the tile surface to remove emulsified residues

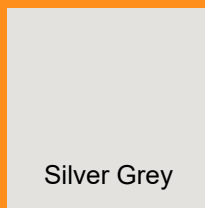

Finished application

ARDEX EG 18 PLUS

Easy to Apply & Clean Epoxy Tile Grout

Colours available

ARDEX EG 18 PLUS can withstand full loads after 2 days' curing, and after 7 days is resistant to aqueous salt solutions, chlorine water, commercial cleaning agents and a wide range of dilute mineral acids.
