

Quality Policy Statement

The development, manufacture and supply of high-quality, high-performance products and services are the primary objectives of Ardex UK Limited.

In this respect the quality of our products and services are considered satisfactory only when they are produced from approved materials, conform to the required formulations, are produced in accordance with the approved manufacturing process and they are both appropriate and fit for the purpose intended.

In pursuit of these objectives the Company is committed to maintaining up to date and appropriate documented procedures covering all relevant business, manufacturing, and development processes in accordance with BS EN ISO 9001:2015, in accordance with the context of the business, its strategic direction and to ensure consistent outputs and product quality.

The Company will also rigorously review these procedures to identify ways in which the overall quality performance can be improved and to ensure it remains effective. The Company is committed to setting, and regularly reviewing, quality targets and objectives.

The quality policy of Ardex UK Limited is not only to achieve the stated quality objectives, but also to maintain and continuously improve its performance in meeting the requirements of its customers.

To this end the Company is committed to achieving the participation of all employees in the development and implementation of its quality systems and procedures and to increase their contribution through communication, training, and personal development.
